

Vintage Gardens Current Rose Availability in Band Pots November 22, 2011

This list, published on 11/22/11 is a complete list of all band-sized roses available on that date. We offer this as a simple list you can print out to work from and make notes on. Our availability changes daily, sometimes hourly, so always consult our online catalogue for more accurate information on what roses are in stock.

For those of you unfamiliar with our system of naming, the letters VI and VID indicate that the variety we are propagating has been virus indexed and shown to free of Rose Mosaic Virus. Class codes precede the name of each rose. Check our catalogue for the full class name of each, or refer to our website which lists the classes in alphabetical order.

Please note that many of the roses in our most recent release in November may not be ready to ship immediately and will be scheduled to ship to you after mid-March.
